* A "Linear Translator" is a form of x-band repeater

Inputs on 145.510, .530, .550, .570, or .590 may be translated to another band.

Outputs on 145.110, .130, .150, .170, or .190 may be translated from another band.

SNP = Shared, Non-protected
 For Repeater Lists and updates, check BCARCC website: www.bcarcc.org
